PROFILE

Skilled full stack web developer with expertise in Next.js and Node.js, experienced in managing both frontend and backend development while prioritizing UX/UI. Adept at delivering high-quality web solutions through team collaboration and technical proficiency. Seeking to contribute my skills to a full stack developer role, helping to build exceptional, client-focused web experiences.

STRENGTHS AND EXPERTISE

Strong proficiency in web development and error resolution

Highly adaptable to evolving project needs and challenges.

Excellent communication and teamwork abilities.

PROJECTS

Ward/Municipality Issue Management System

Role: Full Stack Developer (Next.js)

- Developed a community-driven issue tracking system using Next.js, with user anonymity, a dashboard for issue escalation, and community voting features.
- Designed and optimized the database schema and backend logic to efficiently manage and resolve issues.

GiftRight Charity Website

Role: Full Stack Developer (Next.js)

- Integrated eBay APIs and ported the database from MongoDB to MySQL for an online charity gifting platform using Next.js.
- Improved user experience and added modern UI components, ensuring a smooth process for charitable contributions.

Regex Quiz Application (<https://regx-game.vercel.app/>)

Role: Full Stack Developer (Next.js)

- Developed an interactive quiz platform using Next.js, featuring a point system and hint functionality to help users improve their understanding of regular expressions.
- Implemented a secure backend for regex pattern evaluation and user session management.

Interactive Resume Website (<https://resumejp-75b83.web.app>)

Role: Frontend Developer

- Developed a responsive, dynamic resume website with expandable sections, smooth transitions, and clickable links using JavaScript.
 - Created an engaging interface that showcased professional achievements and ensured optimal viewing across devices.
-

EXPERIENCE

Full Stack Development Intern

Codanto | July 2024 - August 2024

Developed and deployed multiple web applications, focusing on full stack development using Next.js, Node.js, and various web technologies.

Key projects included:

- **Interactive Resume Website:** Created a dynamic, responsive portfolio to showcase professional achievements.
- **Cocktail Recipe Website:** Built a platform for discovering and saving cocktail recipes, integrating real-time API data.
- **Regex Quiz Application:** Developed an educational tool with a point and hint system to enhance users' regex skills.
- **Ward/Municipality Issue Management System:** Designed a community-driven platform for reporting and tracking local issues.
- **GiftRight Charity Website:** Integrated eBay APIs and migrated the database to improve an online charity gifting platform.
